

Product: Chino 12 Point Digital Recorder AH4712-EOA

Product Code: GHT 2474

The Chino 12 Point AH4712-EOA analogue recorder is housed in a robust, powder coated, mild steel or stainless steel casing with convenient carry handles fitted. The AH4712-EOA digital recorder is a hybrid recorder which gives the option of printing to chart and also saving the data to SD card which can then be processed from a .CSV file. The recorder employs bright and clear, easy to view LCD display. Measuring value display is prepared as a sequential single channel display, multi-point simultaneous display or digital display + bar graph display. Various measuring and recording settings can be easily configured by front control panel with no need for PC connection.

Features:

- Standard model 12 channel
- Temperature range 0-1200°C (Factory Set, can be altered within programming menu)
- Type K polarised sockets fitted to the rear of the unit
- SD Card to export data to PC
